CHILD TRACKING

State has under taken a massive data cleaning exercise leading to cleaning of enrolment data. Child tacking, a system for identifying actual enrolment of the children with their Unique ID/Aadhaar Card was introduced and carried out through **SDMIS (Student Data Management Information System) In-sync with UDISE 2016-17** in the state.

Out of the total school **3895**, **3890** (99.87%) schools were successfully validated and uploaded online/offline mode. In the state 36% of the children at elementary level were found having Aadhaar, and rest were covered through State Unique ID.

Impact:-

SDMIS exercise for Child tracking had a very positive impact in regard to data cleaning and uploading authentic actual existing children enrolled in schools.

Because of child tacking there has been a fall of 43914 Children at the elementary level (35918 at Primary and 7996 at Upper Primary level) from 2015-16 to 2016-17 in the schools of all management. There is fall of 39159 Children at the elementary level (32200 at Primary and 6959 at Upper Primary level) from 2015-16 to 2016-17 in the Government Schools run by the State Government of Arunachal Pradesh.

Due to the steep decline in enrolment uploaded online/offline under SDMIS, the Educational Indicators shows decline in terms of Transition from **97.26% to 90.23%** and Retention from **51.68 % to 45.46%** at Primary level & **91.05% to 82.97%** at UPS level, high Dropout rate from **11.35% to 20.13%** at primary level and **from 6.5% to 9.3%** at upper primary level.

GER **(97.03%)** & NER **(78.10%)** at Primary level and GER **(85.82%)** & NER **(64.73%)** at Upper Primary level and GER **(92.97%)** NER (**73.25%**) at Elementary Level indicated more coverage of authenticate data.
