

WHERE THERE IS A WILL, THERE IS A WAY....

School Name:

Swami Dayanand Saraswati Pri School City No 29,

Vadodara Corporation, Vadodara.

Principal Name: Smt. Ketuben Pathak

English Faculty: Mr. Trilok Updhyay

(Took additional responsibility of Computer lab)

School Coordinator: Mrs. Madhavi Patel

Effective use of computer lab:

This government school is a great example of utilizing resources effectively. School management along with teaching and not teaching staff have integrated computer aided learning in day to day education process. Students are trained well to handle and maintain small issues related to computer lab.

[From Left: Principal Smt.Ketuben, School coordinator Mrs.Madhavi Patel, Students Abrar and Hasanraza with English teacher Mr.Trilok in middle]

During our recent visit on 4th July 2016, we found two students "Master Khatri Abrar A" and Master "Ansari Hasanraza I" were handling the whole computer lab along with their English teacher Mr.Trilok Updhyay.

It was really amazing to see the model of lecture delivery. Teacher was teaching a topic "Magnetism" and other students were learning the topic sitting on floor. ***Abrar was handling the main teacher computer and he was driving the educational content as the topic was flowing.*** Abrar and Hasanraza also showed the steps of preventive maintenance like how to un-plug and plug computers? How to keep the lab clean? etc. Such a maturity is really appreciable at this young age. We asked the reason of this expertise, they mentioned that it was all because of Trilok sir's training.

True Leadership:

Principal maam Smt.Ketuben Pathak is playing a very effective leadership role. She has identified the key strengths of her school team. She has done a very effective work allocation. Knowing the strength of Trilok sir, she has assign the computer lab responsibility him. She interacted with local NGOs like Rotary club and L & T foundation to bring additional resources like LED TV, educational software for computer lab. She ensures the cleanliness of lab by putting extra efforts.

Efficient role of school coordinator:

School coordinator has played very efficient role by acting as bridge between students, teachers and school management. Mrs. Madhavi Patel visits computer lab regularly and keeps principal maam updated regarding activities. She has also ensured that CAL lectures are inculcated in day to day teaching learning process. All students give very strong positive response about computer usage when asked.

Madhavi has gone extra mile and supported her school teachers for "CCC" exams which is very important for teachers.

Community Impact:

All these efforts by school management, teachers and other staff members have made this school a popular destination for children study. The parents of surrounding community started preferring this school over private schools. Today total number of students studying over here are 665 out of which 345 are girls and 320 are boys. The school has said no to further admissions as it doesn't have capacity to include more students. This is really a great example of government school which has attracted the students of private school because of quality education delivery. All other government school can definitely learn a lot from this school.

Challenges faced:

At present, school is in very critical need of renovating their building. They are putting their best efforts but unable to get through the processes. They have already submitted their request to Vadodara Municipal Corporation.
