“The Village has given so much, we have to” repay it.”

BADI RUNAM THEERCHUKUNDAM

MAA VURI SREE MANTHUDU.....

Sri. Yarnagula Sudarshana Rao garu

“The Village has given so much, we have to”

repay it.” This is a famous line in a movie that enthralled the audience. Here is such a befitting story, but a real one in nature that brought exponential changes across all corners of life in the village. His metamorphosis journey from a poor family background to an Industrialist phase and his philanthropy is the state of highest inspiration that everyone need to internalize.

Here the Hero is Sri Yarnagula Sudharshana Rao garu, an alumni, mentor, entrepreneur and prominent donor of the Zilla Parishad High School, Laxminarsupeta. A Common Man’s story that is unique in any quantum.

Hailing from an absolute poor family, Sri Yarnagula Sudharshana Rao garu born in 1960 in Laxminarsupeta, an agrarian village that is adjacent to the river Vamshadhara. He completed his SSC in Z.P.H School, Laxminarsupeta in the Year 1975. He had his technical qualification in tool designing before landing himself in Chennai to prove his mettle. He carved his life magnificently by systematic and disciplined hard work. He crossed many odds to pave his life in an entrepreneurial equation. His businesses world expanded from manufacturing Automobile parts to Supermarket & Warehousing Racks, from Tools & Dies to Amusement equipment such as 5D theatres.

“The School taught me everything. These lawns are the learning platforms. I derived everything from it. I am indebted to it” he shares very happily. His stint with school - all round development was started in the year 2014 with School Alumni Meeting. He was deeply distressed by the School situation. The school sans everything. The buildings were dilapidated, roofs were broken, no boundary wall, no connected water taps, pathetic flooring, no sitting benches, no toilets, no digital rooms,

Old dilapidated buildings of ZPH School, L.N.Peta

His first announcement was 6 lakhs for providing basic amenities to the School. No sooner than his announcement, development works were also initiated on war footing way. His strength lies in garnering the support of the village in any initiative that benefits this Saraswathi Nilayam. He transformed his self propelled development as the community oriented initiative. Within the span of 3 years, the school accumulated everything. Entire picture of the School was changed spanning from Digital Classroom to School toilets running water, from boundary wall connected refurbished classrooms to plantations, from adopting the poor children to giving the toppers an opportunity to go by flight. In fact he left no corner in the School without development. Nearly 23 lakhs were spent merely for School development.

During the academic years of 2016-17, he announced 5 day Chennai voyage by flight to the toppers of the 10th Class students. This really worked like a mantra among the students, that culminated in sportive competition. This resulted in 100% result. Two students and a Teacher from ZPHS, LN Peta and three girl children and a teacher from KGBV, L.N.Peta

clinched the opportunity. Children were treated as Kings and queens during the entire period of stay in Chennai, which was from 23rd – 28th September 2017. They were exposed to various developmental and cultural arenas.

His activities were not only limited to the School boundaries but also spread to village also. He believes that ***“School is the resemblance of the Society and vice versa”***. He took up the cause of “Swatcha Bharat” and initiated a series of interventions to arrest Open Defecation. Played a keen role in the construction of IHHLs. Tree Saplings from famous Kadiyam Nurseries brought and disseminated to the villagers to make the village green. Community Hall was constructed by his sole initiative. Youth were grouped and channelized their energies for the cause of the village development. Sport materials were supplied to them. He spares valuable time from his busy schedule and visits the village every one month to take stock of the developmental initiatives.
