ESTABLISHED A DIGITAL LEARNING CENTER IN ZPHS GOWDAVALLY, Medchal- Malkajgiri District.

In the last academic year, Jayasurya Foundation under the leadership of Sri Vijay Madduri (Founder/Director) established a Digital Learning Center in ZPHS Gowdavally. Our school was the first ZPHS to be chosen for this project.

The DLC has state-of-the-art facilities like computers with latest technologies, delivery of modules in English, Math and Sciences in audio-visual as well as interactive formats with the help of a trained teacher. The Center has been established in a Container because of spatial constraints in the school building.

The learning is imparted to students in Standards VI, VII and VIII on a daily basis divided in batches. More than 200 students are covered every week.

A good number of Math modules have been covered so far which helped our students improve their skills in the subject. This has been the biggest impact of the DLC so far.

The DLC was inaugurated by Mr Andrew Fleming (UK Consul General) and MsMitali Raj (Indian Woman Cricket ex-Captain) in the presence of our DEO.

The DLC has vastly improved the learning environment in the school campus and the attitude of our children. The SMC has learnt that more students from the neighbourhood communities are interested in joining our school because of the facilities and opportunities provided by the DLC.
