

# Shift from nearly closing to No admission situation

## MPPS Chandurthi- Rajanna Sircilla Dist. Telangana

In the last academic year 2018-19, there were 32 students in the MPPS Chandurthi. After the final exams 9 students were of 5<sup>th</sup> class who moved to High school for 6<sup>th</sup> class. The school is left out with 23 students and it would be difficult to manage the school as 2 teachers out of 4 would be sent on deputation to other schools because of low strength.

Realizing the situation, the school HM and teachers decided to work out on increasing the enrollment thus avoiding the situation of school closure. The school met with the community, village head, and public representatives to discuss about this situation and discussed on strategies and ideas to save the school and to assure parents of better /quality education.

Soon with the help of village heads and community, we formed a committee and pooled resources from various sources like funds, donations from NRIs, Public representatives and started to paint the school, TV for digital classes, purified Drinking water facility and the way leading to the school was repaired.

In May 2019, the committee for saving the school went on door to door campaign in the village creating awareness about Education, explaining the facilities available, the qualifications of the teachers, success stories of Alumni students and benefits that were being given by the Government. They were assured of overall development of their children including teaching in English Medium. This campaign went on for 45 days moving to each and every corner of the village meeting parents and community at very possible place.

This hard work of the committee for 45 days resulted in increasing the enrollment to 300 from 23 students and it continued to increase but we had to keep "No Admission" notice as there were no extra classrooms to accommodate the increasing strength. We are very grateful to all the people who supported us in achieving this and we would work hard to keep up to the expectations of the parents.

# బడిని బతికించుకున్నారు!

28 నుంచి 3013 వరకు విద్యార్థుల విద్యార్థులను నిర్వహించే బాధ్యత భద్రవరం వహించి యువకులను అభివృద్ధి చేసేందుకు ప్రయత్నిస్తున్నాం.

చివరికి బడిని బతికించుకున్నాం. ఇది మాకు పెద్ద విజయం. ఇది మాకు పెద్ద విజయం. ఇది మాకు పెద్ద విజయం.

**అందరి సహకారం** - ప్రతి ఒక్కరూ సహకారం చూపినప్పుడు మాకు విజయం లభిస్తుంది.

**ప్రస్తుత సమస్యలు** - ప్రస్తుత సమస్యలు ఏమిటో తెలుసుకోవాలి.

## 'Last year on the verge of closure, now record new admissions'

The strength of Chandurthi Primary School increased from a mere 23 students last year to 240 this year

Thanks to the gram panchayat governing body, youth and villagers

Students having mid-day meal in the school

English medium in the school. They formed Yikya Panchayat Committee. Later, they campaigned for the school by visiting each and every house in the village to explain the parents about the need to keep the government school open and to introduce

Earlier, the school was run by only three staff - Headmaster and two teachers. The school of Education Department responded positively to the request of the headmaster for more teachers and allotted four teachers to the school keeping in view of the increased strength of the school.

Due to the lack of funds, the school was on the verge of closure in last academic year 2017-18 when the gram panchayat governing body took the initiative to revive the school with the help of the village youth.

Today this school is proud to welcome the admission of 240 students in the year and has to keep a 'No Admissions' board at the gate. This, stand as an example for other schools in the State.

When the gram panchayat governing body came to know about the school's situation, they held a meeting with the youth, teachers and villagers. They requested the teachers to provide quality education on par with that of private schools and to introduce
