

## **Best Practice in Utilization of Transportation Charges**

### **Dropouts Became Regular**

Kachkanti is a village of Adilabad rural mandal very near to the Adilabad municipality. It is situated between two Parallel Roads leading to Sathnala and Ankoli.

MPUPS Kachkanti (36010801902) is situated at Sathnala road with an Enrolment of 90 Students. Due to urbanization most of the families moved to the other end of the village which is 3KM. away from the Village Kachkanti so most of the children slowly became irregular to the school and some even stopped attending the school.

The Head Master Mrs. Savitha and CRP Darshan motivated the parents to send their children to the school. With the resolution of the SMC and parents it was decided to engage an auto by paying it from the transportation facility provided to the children by Samagra Siksha. An auto was engaged to bring the 12 children from their homes to the school. Now the number of children coming from that colony (New Kachkanti) has increased to 26.

Thus the dropouts have become regular to the school with the provision of transportation charges to the children.
