

## SNEHALAYA

## CASE HISTORY

Snehalaya, a home of love, care and protection. Hundreds of children passed out in our STC since last 12 years. Many of them are doing good jobs in private and Govt sectors.

The greatest reward for a teacher is only and only their student's success. It is such an honor to be able to teach students and love them while they are in our care. We get to watch our student's (current & previous) growth and we are proud that, we were part of the process to get them to where they are today. It's really admirable.

Today, I am sharing a case history of the boy who recently passed out his 12<sup>th</sup>.

The boy named Jatin (changed name) was admitted in children home Snehalaya Chandigarh under the category of Orphan and referred by UTCPS and rescued from Govt Medical College Hospital Sect-32 CHD. Child belongs to Ludhiana but resided in Haryana with his Paternal Uncle and he died in Hospital due to heavy fever.

After that he came to Snehalaya as a drop out child and was admitted in class 6<sup>th</sup> in our STC. Sometimes he scored worse. He was not good in studies at his initial stage. But he was a hard working child. I am proud of the way he worked hard.

He was a keen observer and having all qualities like discipline, building relationships, sense of respect, taking responsibility, participating in extra-curricular activities etc. After completing his 2 years in STC he was admitted in GHS Sect-40A. In 2018, child cleared his 10<sup>th</sup> class and got admission in 11<sup>th</sup> class at GMSSS Sect-47 and he secured 63% in 12<sup>th</sup> in this year.

Now, child wants to get enrolled in diploma in Hotel Management. His admission is under process. He is a good player of Kabaddi and he played at National level at 29<sup>th</sup> Sub-Junior National Kabaddi Championship Boys at Dumka, Jharkhand

He also participates in various activities like Bhangra, Dance, Theatre, Art and Craft and represents Snehalaya Boys.

**Special Note: Identity of the child is hidden due to confidentiality of Institute.**

I wish him all the success today and always. May there be success at every turn of life and his dreams come true.
