

# MUSHROOM CULTIVATION

## Achhra Primary School

Nabagram Circle, Murshidabad District

### **Name of Initiative**

Mushroom cultivation.

### **Our School**

Nestled in a remote area in Nabagram Bloc of Murshidabad District Achhra Primary School is located in a remote area. Most of the students are first generation learners. It is a matter of great satisfaction that in a short period of time, with the help of community involvement and mobilization, Achhra Primary School has become a role model in spreading education with innovative ideas with its unrelenting service and dedication. The school has been able to record good number of academic days and maximum attendance by the students with the help of their teachers and local support. Active participation by the students also contributes to the success of the school.

### **Place**

Entire Mushrooms are grown within the School Premises.

### **Year of Implementation**

2022

### **Description**

Growing Mushroom in the School premises for students. This in turn will provide rich nutrition by easy and scientific method. Mushroom has added protein power and is also known for providing power nutrition required for teen agers. Secondly, when cooked, mushroom has more taste than any other available vegetable in the area and mushroom can be prepared with various tasty recipes.

### **Description**

Depending on available fund, weather and several other factors we have the vision to produce more for the malnourished population in the surroundings. Though, quality of our produced mushroom is of high quality, we still are aspiring to produce the best.

## Preservation

The delicate part of mushroom production is to pick it up for consumption at the right time. A little delay can spoil the product. And once it is picked for consumption needs to be consumed without much delay. So both the teachers and willing students are brainstorming on preservation without any waste.
